Education

Technological University of the Philippines
Bachelor of Science in Computer Science

Manila, Philippines
July, 2024

Latin honors: Cum Laude; DOST Undergraduate Scholar (R.A. 7687)
Thesis: Web-based Study Planner for Irregular Students at TUP–Manila

Experience

Kyndryl Philippines Inc.

Makati City

Early Professional Hire - Graduate Program; IT Application Consultant

July 2025 – July 2026

- Contributed as an AWS Data Engineer from April to May for a Contract Management System AWS + Cloudera MVP project, supporting backend/data engineering work, cloud integration readiness, project documentation, and AI-assisted development workflows.
- Provided Service Desk L1 support from January to March, averaging 25 calls, handling incidents, service requests, access-related concerns, ticket documentation, escalation workflows, and end-user communication in a banking enterprise environment.
- Completed first-year enterprise readiness across probationary and post-probation development, building capability in Kyndryl culture, digital transformation, code-of-conduct alignment, cloud foundations, and 9 cloud/IT certification or credential outcomes.
- Delivered as an IT Application Consultant across graduate, support, and project-based assignments, applying enterprise delivery standards, client-facing communication, documentation discipline, and compliance-oriented execution within Kyndryl Philippines.

Seaversity Inc.

Intramuros, Manila City

Full-Time Web Developer Intern

March 2024 – June 2024

- Developed and maintained a prototype web application in an on-site environment using Vue 3, Nuxt 3, Pinia, Tailwind CSS, and Laravel.
- Collaborated with professional developers to implement features, follow coding standards, and apply scalable, maintainable full-stack development practices.
- Contributed to team discussions and development tasks aligned with real client and business requirements.

Rustan Coffee Corporation / Starbucks

Newport World Resorts branch, Pasay City

Seasonal Part-Time Barista

October 2022 – January 2023

- Delivered customer service in a fast-paced, standard-driven environment requiring precision, teamwork, communication, and consistent food operating procedures while maintaining academic responsibilities.

Projects & Technical Initiatives

Multi-Agent Web Portfolio & Developer Mesh
Independent

Personal Development
July 2026 – Present

- Architect-ed a modular 5-agent engineering pipeline utilizing Model Context Protocol (MCP), spec-driven development (EARS notation), and local LLM runtimes (LM Studio).
- Enforced prompt engineering best practices, context ledger maintenance, and cross-agent data handovers under zero-hallucination constraints.

Agentic AI & Cloud Workflows	Community/Hackathon Projects
Technical Contributor & Builder	June 2025 – Present
- Engineered multi-agent and AIOps builds for global virtual hackathons including All Things Agentic Hackathon and Agents for Humans Hackathon, alongside the OpenAI Build Week Community Buildathon - Manila at Ateneo de Manila University. - Active participant in local AI developer communities (Kiro workshops, Data Engineering Pilipinas, Microsoft workshops); prototyped AIOps pipelines and automated code generation workflows on local hardware.	

Leadership & Activities	
AWS re/Start Program — Batch Cohort PHMAN26	Online Learning
Graduate & Alumni Guest Speaker	November 2024 – Present
- Selected as one of 50 scholars from 1,500+ aspiring applicants and completed a 12-week, full-time, instructor-led cloud workforce program with a 100% cohort graduation rate; built AWS cloud foundations through hands-on labs, AWS Certified Cloud Practitioner exam preparation, 300+ hours of technical training, and 55+ hours of employability skills development. Graduation Rites, networking and job fair took place on April 2025. - Volunteer actively with Edukasyon.ph student outreach events as an alumni mentor, sharing insights on Kickstart Your Cloud Journey & AWS 101 Workshop, scholarship journeys, and responsible AI.	
TUP-DOST Scholars’ Club; Google Developer Student Clubs; TUP Debate Society	Manila City, Philippines
Member	Sept 2020 – Aug 2024
Engaged in academic, technical, and competitive communication activities while maintaining DOST scholarship obligations and graduating Cum Laude.	

Skills & Certifications	
AI & Agentic Systems: Multi-Agent Orchestration, Model Context Protocol (MCP), LM Studio, AIOps, Prompt Engineering, Spec-Driven Development (EARS), AI-Assisted Workflows	
Cloud & Data: AWS, Azure, GCP, OCI; Cloud Data Engineering (S3, Glue, Lambda), Cloudera MVP, ETL/Data Pipelines, SQL	
Development & Frameworks: Python, JavaScript, Shell, Vue 3, Nuxt 3, Pinia, Tailwind CSS, Laravel, REST APIs, Git, Github	
ITSM & Infrastructure: Linux, Networking Basics, Security Fundamentals, ITSM Incident Management	
Certifications: AWS CLF-C02, AWS Certified AI Practitioner, Microsoft AZ-900, GitHub Foundations, GCP CDL, GCP Cloud AI Leader, OCI Foundations, OCI AI Foundations, Oracle Data Platform, Coursera Google IT Support, Coursera Google Cybersecurity
